Projects

GitHub | [GitHub.com/KCendana](https://github.com/KCendana)

A collection of my programming tasks. Features three semesters of coursework coding with C++ as well as an HTML/CSS class. Each repository has a brief summary of the course and each project folder has a summary of what I did and learned.

Personal Website | KevinCendana.com

A website about myself that I plan to fill up with all of my experiences in computer science. Made with HTML & CSS using Notepad++.
